

Ikon

IKL50 Barrier louvre

Product description

Designed to cover areas where fall from height is an issue.

58.7 x 10mm elliptical straight sided, or double wall louvre, extruded aluminium blades, fitted into a variety of outerframes with stainless steel screws.

Outerframe choice varies depending on application.

All projects are assessed individually

Pitch — can be varied project specific

Blade angle — can be varied project specific.

Maximum free area varies depending on blade angle and pitch

Standard RAL or BS colours. Anodizing to special order.

Product testing

(based on elliptical blade)

Impact resistance to BS EN 13049:2003 achieving Class 5 Wintech Test report R14340-2

Wind resistance to BS EN12211:2000 and BS EN 12210:2000 achieving Class 4

Tested project specific to 2210 pascals. Wintech Test report R14340-3

Impact resistance sample 1000 x 2500, 60mm pitch 45 degree angle

Wind resistance sample 1200 x 2850, 60mm pitch 45 degree angle

Unit 1 Yardley Brook Industrial Park, Leaford Way, Shard End, Birmingham, B33 9TX
